Become an

ETHICAL HACKER

Duration: 2 Months

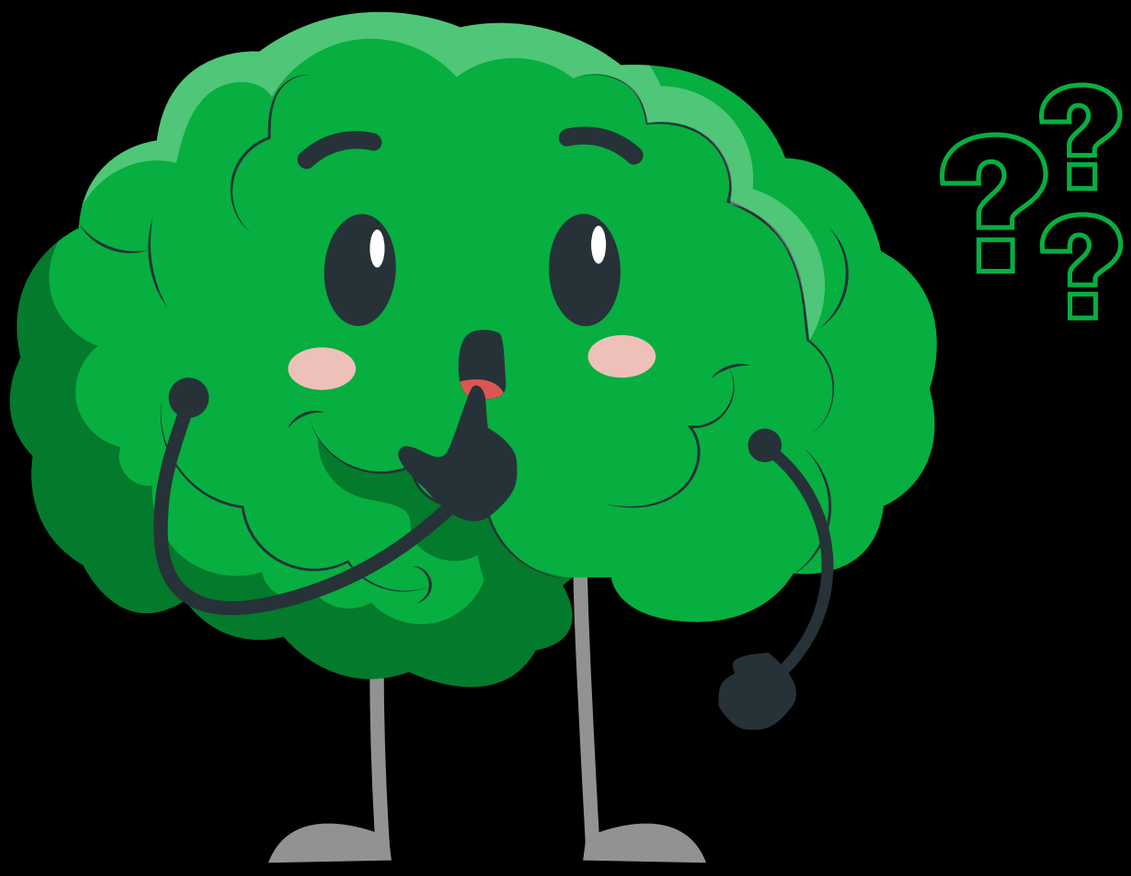

Level up your skills with
Ethical Hacking Mentorship Program

CURIOUS??

We know, what's on your MIND!

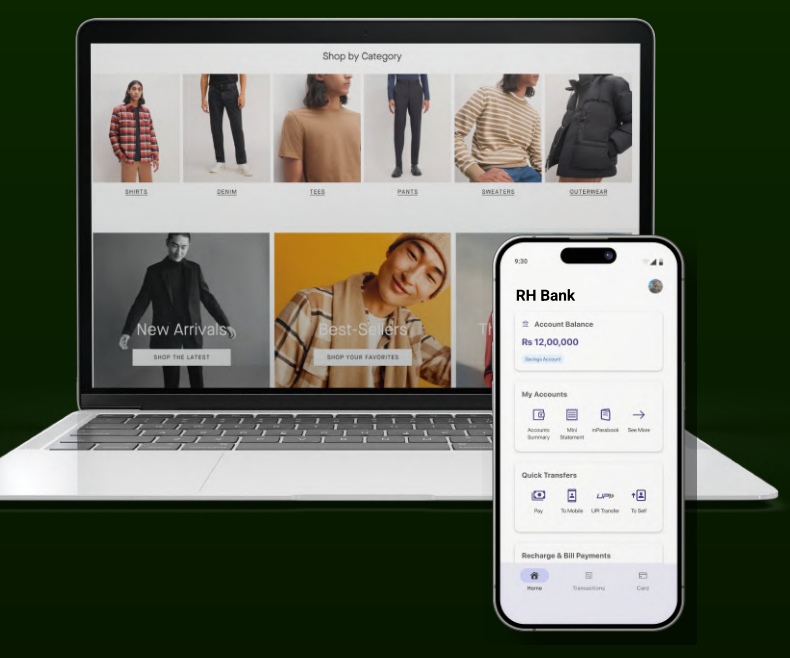

1. What is Ethical Hacking?
2. Why is Ethical Hacking a promising career path?
3. Why should I choose WsCube Tech?
4. How does this program work?
5. What exactly will I learn?
6. Who are my mentors?
7. Am I going to get career support?
8. Will I get a certificate to enhance my resume?
9. Are there any success stories from the past?
10. How to enroll in this program?

What is **Ethical Hacking?**

1

Is your Digital Identity safe and secure?

In today's tech-savvy world, where we rely heavily on the internet for everything from **online shopping** to **online banking,** protecting our information is a major challenge.

Whenever we do something online, we leave behind our digital footprints. Once we post or share something online, it can stay there forever.

Just because we don't see it, does not mean it doesn't exist!

Have you heard of the devastating ransomware attack in **May 2017** that started in Asia and quickly spread worldwide?

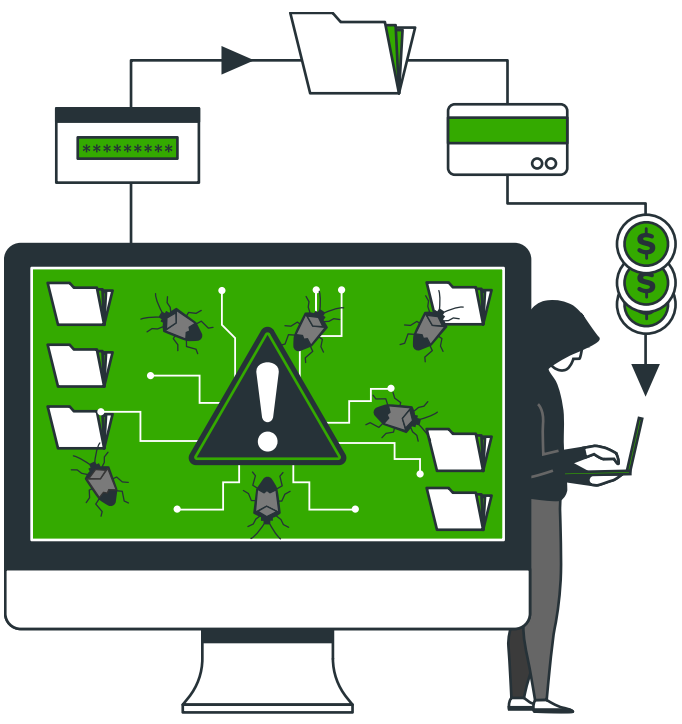

Within just one day, over **23,000 computers** in 150 countries were infected.

WannaCry
Ransomware Attack

This attack caused chaos across various sectors, affecting big-name companies like **Hitachi, Nissan, and FedEx**, demanding ransom payments in the Bitcoin cryptocurrency.

Even now, ongoing cyber attacks are happening worldwide every day.

Ethical hackers being the superhero, prevent our data from being stolen and misused by malicious attackers.

They discover vulnerabilities in weak systems and implement a secure network that prevents **security breaches.**

If this excites you, you are at the right place.

Become the unsung hero & ensure the security of every
Click, Share, And Transaction..

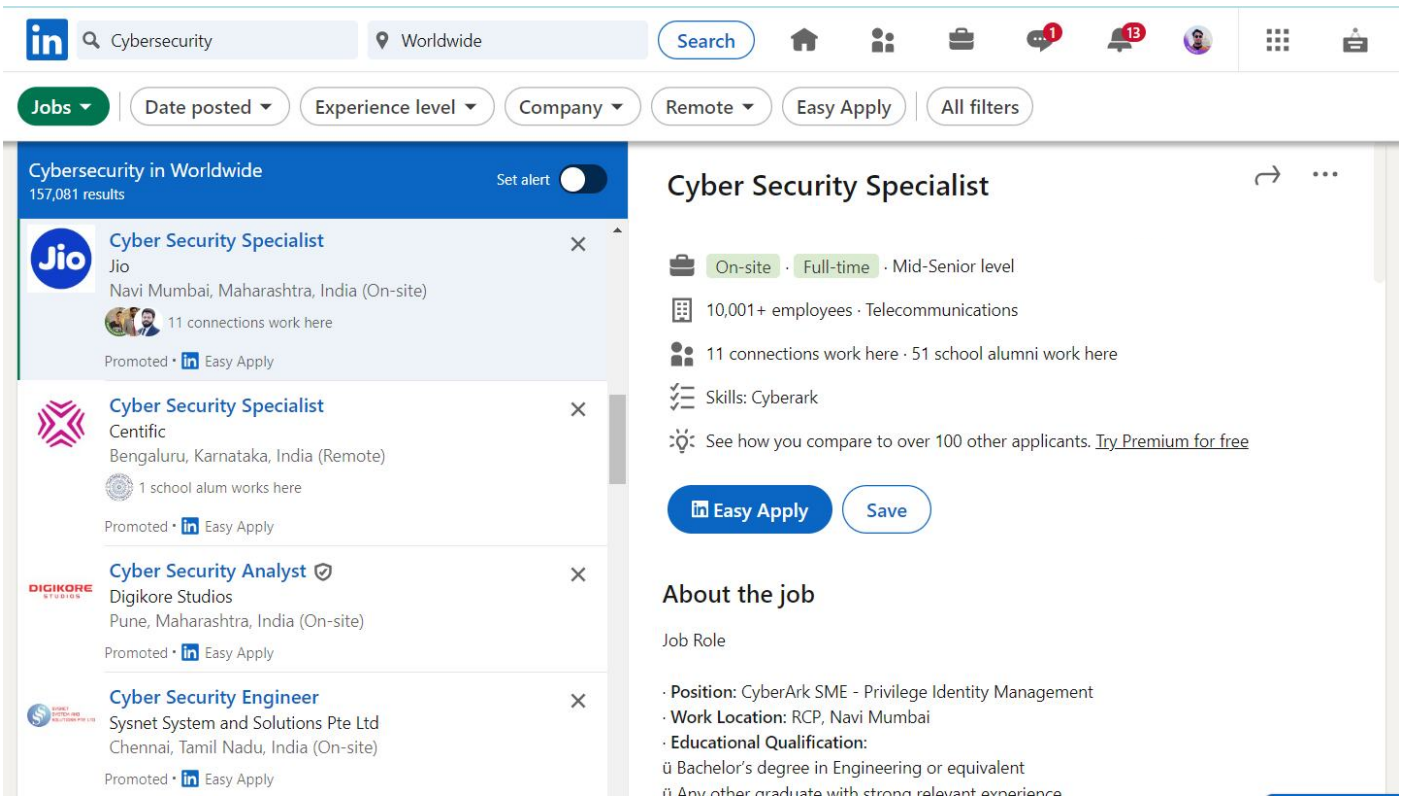

2

Why is Ethical Hacking a promising career path?

We've fetched some data for you!

LinkedIn says that cybersecurity is a highly in-demand job right now, with around **157,000** job openings worldwide.

The job market for ethical hackers, is predicted to increase by **32% from 2022 to 2032.** This growth is much faster than most other jobs.

Career **Prospects** for **Ethical Hackers**

Grab this opportunity before you miss the wave of endless possibilities!

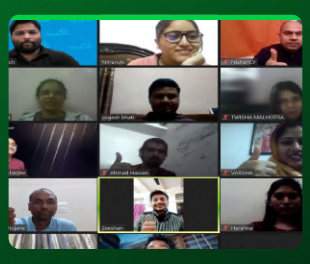

3

Why should I choose **WsCube Tech?**

Your Success is Our Mission

WsCube Tech's Upskilling Pedagogy

Project-Based Learning

Engage in real-word projects, especially designed to enhance your critical thinking, collaboration, and problem-solving skills.

Secure Windows, Linux, and Server Environments by configuring and optimizing firewalls.

Linux Windows

Create undetectable Android payloads within innocent-looking apps using AhMyth binding.

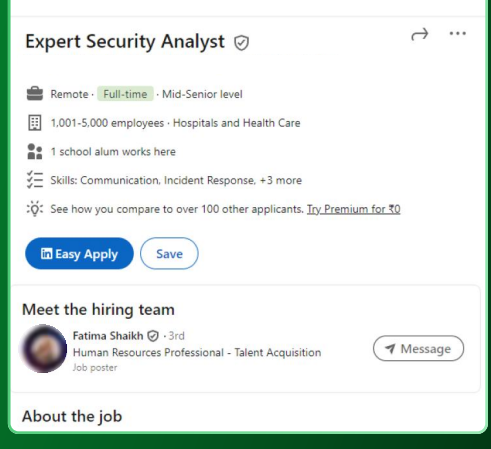

AhMyth

Program Curriculum

Module 1

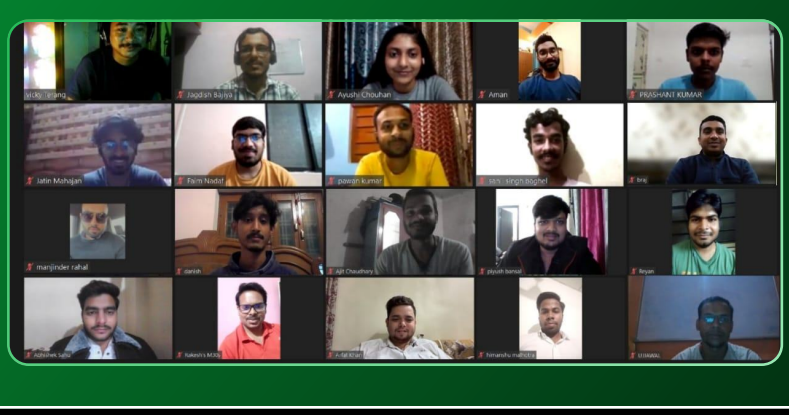

Networking Concepts

- Practical and intro to WS-CEH and Scope
- Practical and faq
- Networking Introduction
- What is Networking
- Types of Networking
- What is ISP
- What is IP & Versions of IP & Types of IP
- What is MAC address

Doubt Resolutions

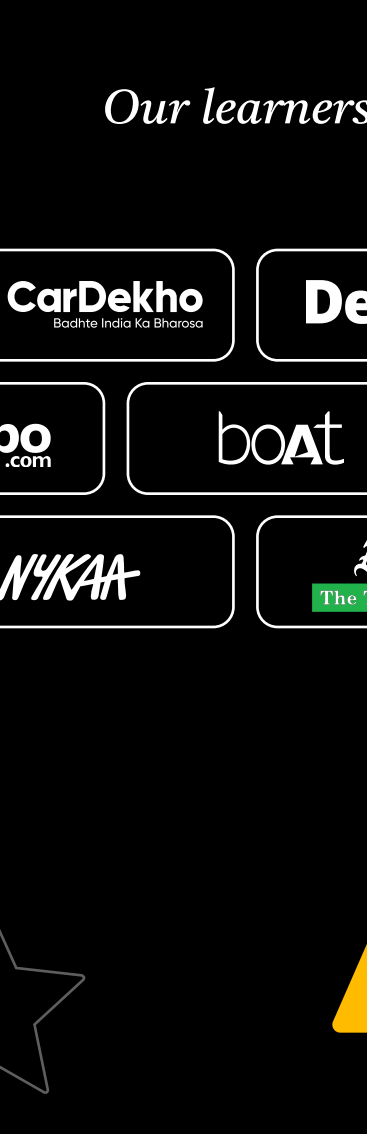

You can ask all your questions and doubts to the mentor during the Live classes. All your doubts will be resolved efficiently to ensure quality learning.

Deep Dive with Case Studies

We offer insights into real-life problems, and solutions to help you understand complex concepts, and real-world scenarios.

Glimpse of **Ethical Hacking Journey**

Come and explore the exciting digital world with us,
where everyone is welcome!

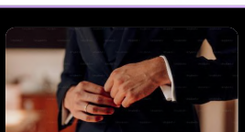

Your class would look like this

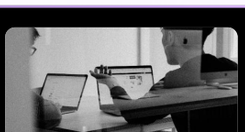

Who can apply for the course?

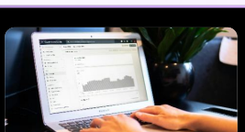

Students

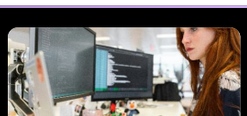

Entrepreneurs

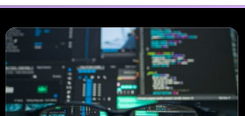

Penetration Testers

Security Analysts

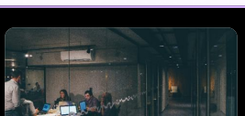

Security Engineers

Ethical Hackers

Software Engineers

Network Administrators

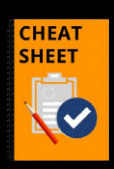

Let's embark on this Ethical Hacking journey together.

4 How does this program **work**?

Learn

Upskill yourself with leading professionals to gain insights from their vast experience.

Practice

Sharpen your skills by learning through course assignments, live projects, and regular assessments and quizzes.

Ask

Resolve your queries with industry experts with our dedicated doubt-clearing sessions.

Build

Craft a diverse portfolio and resume with LinkedIn optimization showcasing your Ethical Hacking expertise.

Crack

Seize your ideal job and make an impact in your career.

- **Resume Building**
- **LinkedIn Profile Optimization**
- **Mock Interviews**
- **Placement Assistance**

What exactly will I learn?

Course Curriculum

20 Modules | **44** Live Classes | **19** Tests

3 Case Study | **3** Projects | **12** Assignments

Module 1
Introduction to Networking

Today your knowledge to answer the most asked questions in networking assignments.

- Introduction to networking
- Networking concepts
- Types of Networking
- What is a router?
- What is IP address?
- Versions and types of IP address
- What is MAC address?

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 2
Linux

- Basic Linux commands (Practical)
- Advance Linux commands (Practical)
- Getting Familiar with Linux OS

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 3
Setting Up Ethical Hacking Lab

- Setting Up Lab
- Virtual Machine / Virtual Box

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 4
Footprinting And Reconnaissance

- Introduction to Footprinting & Reconnaissance
- Footprinting for live systems and Buffer size
- Entities of information gathering
- Source of information gathering
- Performing information gathering using Google Dorking
- Footprinting for network systems
- Google Dorking and ASCII
- Checking for services in ports

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 5
Network Scanning

- What is network scanning?
- Types of Network Scanning
- Types of network scans
- Checking for live systems and Buffer size
- Checking for open ports
- Default ports
- Checking for services in ports

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 6
Enumeration

- Introduction to enumeration
- Types of enumeration
- Default ports
- NetBIOS enumeration
- What is SNMP?
- SNMP enumeration

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 7
Vulnerability Assessment

- Introduction to vulnerability assessment
- Classification of vulnerability
- Scanning for vulnerabilities in Nmap scan report
- What is CVE and CVSS?
- Scanning for vulnerability in Nmap scans through SMB NSE Script
- Vulnerability assessment Lifecycle

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 8
How to Be An Anonymous Hacker?

- Introduction to anonymity
- Dark, Surface & Deep Web
- Proxy Server and Proxychains
- Changing MAC Address (macchanger)
- Tor and Tor Relay (macchanger)
- VPN & Proxy

- 3 Live Classes
- 1 Test
- Notes

Module 9
System Hacking

- Introduction to System Hacking
- Cracking Windows Password
- Creating Good Password Lists using Google Dorks & Scripts
- Windows 8 Privilege escalation
- Creating Windows Password (Pentuny, Mimikatz, Lazagne)

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 10
Malware Threats

- Introduction to Malware
- Fake Malware Removal
- Example of Malware
- What are Viruses?
- What are Viruses and Worms?
- Types of Malware Viruses

- 3 Live Classes
- 1 Test
- Notes
- 1 Assignment

Module 11
Sniffing

- What is Sniffing?
- Active Sniffing Techniques
- Types of Sniffing
- Protocols Vulnerable to Sniffing

- 3 Live Classes
- 1 Test
- Notes
- 1 Case Study

Module 12
Social Engineering

- Introduction to Social Engineering
- Types of Social Engineering
- Human-based Social Engineering

- 3 Live Classes
- 1 Test
- Notes

Module 13
DoS and DDoS Attacks

- What is DoS Attack?
- What is DDoS Attack?
- Types of DDoS Attacks?
- DoS in Networking (hping3, MSF)

- 3 Live Classes
- 1 Test
- Notes

Module 14
Session Hijacking

- Introduction to Session Hijacking
- How to Perform Session Hijacking?
- Types of Session Hijacking

- 3 Live Classes
- 1 Test
- Notes

Module 15
Hacking Web Servers & Web Apps

- Introduction to web servers and web apps
- Web application hacking methodology

- 3 Live Classes
- 1 Test
- Notes

Module 16
Hacking Wireless Networks

- Introduction to wireless networks
- Types of wireless encryption

- 3 Live Classes
- 1 Test
- Notes

Module 17
Hacking Mobile Platform

- Mobile Platform Attack Vectors
- OWASP Top 10 Mobile Risks- 2016
- Android Rooting Tools(Kingroot, Kingoroot)
- Calls, SMS, Email Bombing on Android

- 3 Live Classes
- 1 Test
- Notes

Module 18
Cryptography

- Introduction to Cryptography
- Difference Between Encoding, Hashing & Cryptography

- 3 Live Classes
- 1 Test
- Notes

Module 19
System Security Using Firewall, WAF, and Antivirus

- Firewalls Concepts
- ISA Windows Firewall configuration
- GUI Windows Firewall configuration

- 3 Live Classes
- Real-Time Projects
- Notes

Module 20
Job Assistance and Career Counselling

- How to optimize your LinkedIn profile?
- Preparing for job interviews

- 3 Live Classes
- 1 Test
- Notes

Assignment
Role of networking ports

Networking protocols

What is TCP and how does it work?

Network Protocols

Cryptography tools

OSI vs TCP/IP model

Domain name and DNS records

Request & Response

Assignment
Installing Kali or Parrot OS in Virtualbox / VMware

Downloading & port scan gotchas(Kali Linux)

Assignment
Change default port in Apache2 to ensure your server runs on non-standard port.

Assignment
Use of Netcat in Linux

Basic Linux commands (Practical)

Advance Linux commands (Practical)

Getting Familiar with Linux OS

Assignment
Installing And Setting Up Windows, Linux, Metasploitable 2 Machines

Footprinting using Netcraft, Whois, Nslookup, Dig, Sam Spade

Email footprinting using Email Tracker Pro

DNS footprinting using DNSstuff, DNS lookup, DIG lookup, MX lookup

Website footprinting using Netcraft, Website Informer, Sam Spade, Dig

Footprinting through SMNP framework

Footprinting using Kali Linux

Footprinting in Windows, Linux tools for footprinting

Assignment
Use of information gathering techniques to find domains & subdomains related to McAfee Tech

Assignment
What is network scanning?

Types of Network Scanning

Types of network scans

Checking for live systems and Buffer size

Checking for open ports

Checking for services in ports

Assignment
Use **CAT** to scan a large website, find out all the live hosts and submit the CAT Nmap report

Assignment
Introduction to vulnerability assessment

Classification of vulnerability

Scanning for vulnerabilities in Nmap scan report

What is CVE and CVSS?

Scanning for vulnerability in Nmap scans through SMB NSE Script

Vulnerability assessment Lifecycle

Assignment
Perform network scanning on Metasploitable2 and analyze the assessment and network security

Assignment
Use **ZAP** to scan a large website, find out all the live hosts and submit the ZAP Nmap report

Assignment
Identify open ports on **MetasploitableX** and analyze at least two exploits for each port.

Use **msf** to hack a system (MetasploitableX) and analyze vulnerabilities).

Assignment
Use **ASHUN** to create Android payload and hack mobile device

Assignment
Installing Anonymous Surf

Anonymous Configuration in Linux

Accessing Dark Web (Tor Browser)

Creating Dark Web Website (Tor Server)

Assignment
Network Scanning with Nmap

Perform Enumeration Using Nmap

Search for Best Exploits Using SSTP

Perform Exploitation Of Selected Exploits

Assignment
Installing Anaconda Pro

Vulnerability scanning in systems

Vulnerability assessment lifecycle

Vulnerability assessment reporting

Assignment
Installing Anaconda Pro

Vulnerability scanning in systems

Vulnerability assessment lifecycle

Vulnerability assessment reporting

Assignment
Exploitation Using Metasploit

Exploitation Using Armitage

Exploitation Using Netcat

40+ Ethical Hacking Tools

NetDiscover	BBX Proxychains Guide	Metasploit	Useragent Switcher
netcat	Useragent switcher and manager	OWASP Zed Attack Proxy	Acunetix

7

Am I going to **get career support?**

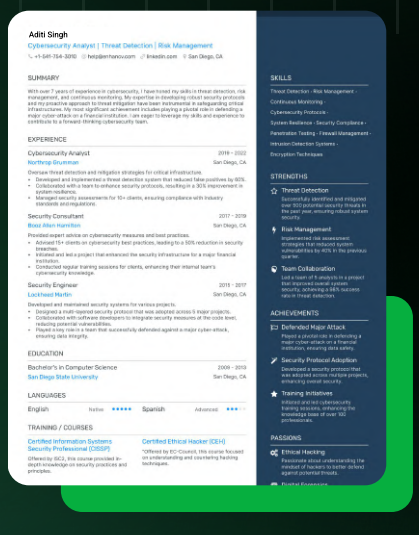

We have got you covered!

Building a career you love, one step at a time.

Mock interviews

Boost your interview skills and confidence with our expert guidance, ensuring you shine in every opportunity.

Resume Building

We help you create resumes for the Ethical Hacking industry's needs.

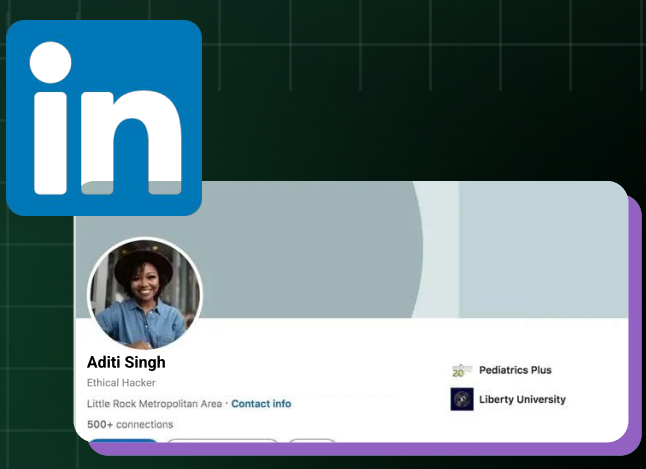

Placement Assistance

Practice your interviewing skills with mock interviews and receive placement assistance to help jump-start your career.

LinkedIn Profile Optimization

Maximize your impact in the professional world through strategic LinkedIn profile optimization by WsCube Tech.

Portfolio Building

Receive assistance in creating a remarkable portfolio that effectively showcases your skills.

8

Will I get a **certificate** to enhance my resume?

Grab the spotlight by getting certified!

Upon finishing our Ethical Hacking mentorship program, you'll earn a certificate of completion.

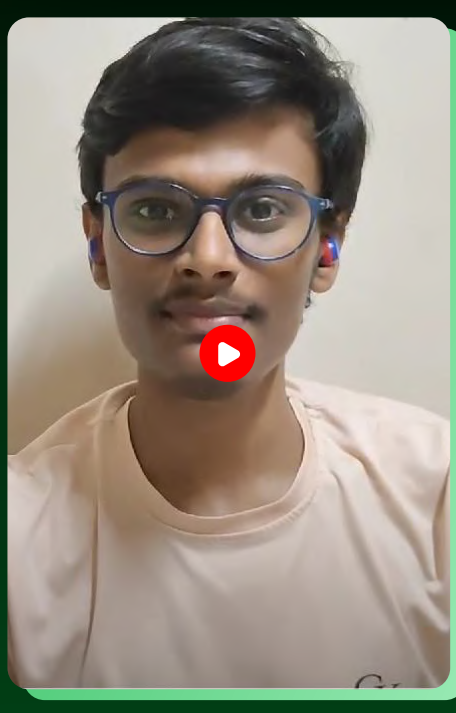

9 Are there any **success stories** from the past?

Discover the HYPE by yourself!

The **Ethical Hacking** Course syllabus was quite vivid, wide-based, and detailed, ranging from scratch to the best! Being a beginner with zero knowledge about it, this course is simply a boon to rely upon! I am whole-heartedly satisfied and have gathered much confidence up till now to explore more in the domain of Cyber Security. The experience was simply Great!
