PROFESSIONAL SUMMARY

Third-year Bachelor of Pharmacy (B.Pharm) student with academic knowledge of pharmaceuticals, pharmacology, pharmaceutical chemistry, drug formulation, and pharmaceutical analysis. Familiar with basic formulation evaluation, laboratory techniques, medicine storage, inventory practices, and scientific documentation. Seeking an internship or entry-level opportunity in Pharmaceutical Production, Quality Assurance (QA), Quality Control (QC), or Research and Development (R&D), with a focus on quality, safety, and GMP practices.

TECHNICAL SKILLS

Pharmaceutical Sciences: Pharmaceuticals, Pharmacology, Pharmaceutical Chemistry, Dosage Forms, Drug Formulation, Pharmaceutical Analysis

Quality and Compliance: Quality Control (QC), Quality Assurance (QA), GMP, GLP, SOPs, Documentation Practices, Validation Concepts

Laboratory Techniques: pH Meter, Weighing Balance, Titration, Melting Point Determination, Basic UV Spectrophotometry, Pharmaceutical Calculations, Compounding

Formulation and Evaluation: Syrups, Lotions, Gels, Creams, pH, Viscosity, Homogeneity, Stability Evaluation, Drug–Excipient Compatibility

Computer and Professional Skills: MS Word, Excel, PowerPoint, Basic Data Analysis, Scientific Documentation, Report Preparation, Communication, Teamwork, Time Management, Adaptability

EDUCATION

Bachelor of Pharmacy (B.Pharm)	2023–2027
Galgotias College of Pharmacy	
Intermediate (Class XII)	2023
S.S.M.C.D. College, Dahiya, Begusarai, Bihar	
High School (Class X)	2021
S.P.N.S. High School, Baaro, Begusarai, Bihar	

HOSPITAL TRAINING

Life Line Hospital and Research Centre	Barauni, Begusarai, Bihar
<i>Hospital Training / Practical Exposure</i>	
- Gained introductory exposure to medicine dispensing and prescription handling. - Learned about appropriate medicine storage, stock maintenance, and inventory management. - Observed hospital SOPs, safety protocols, and procedures for responsible medicine handling.	

ACADEMIC PROJECTS

Pharmaceutical Chemistry and Analysis

- Practiced academic organic synthesis exercises involving compounds such as phenytoin; studied melting point determination and qualitative and quantitative analysis.

Pharmaceutics: Formulation Preparation and Evaluation

- Prepared academic formulations including syrups, lotions, gels, and creams; evaluated pH, viscosity, homogeneity, and stability as applicable to laboratory exercises.
- Studied drug–excipient compatibility and formulation quality evaluation.

Additional Laboratory Exposure: Basic UV spectrophotometry, pharmaceutical calculations, compounding, laboratory safety, and experimental data recording.

CONFERENCES

- Participated in PharmaInnovate 1 International Conference, organized by Galgotias College of Pharmacy (2024).
- Participated in PharmaInnovate International Conference, organized by Galgotias College of Pharmacy (2025).
