PROFESSIONAL SUMMARY

Third-year Bachelor of Pharmacy (B.Pharm) student with academic knowledge of pharmaceuticals, pharmaceutical chemistry, pharmacology, dosage forms, and pharmaceutical analysis. Familiar with formulation preparation, basic quality evaluation, laboratory safety, and pharmaceutical documentation. Seeking an internship or entry-level opportunity in Pharmaceutical Production, Quality Assurance (QA), Quality Control (QC), or Research and Development (R&D), with an emphasis on learning GMP-compliant practices and contributing to quality-focused operations.

TECHNICAL SKILLS

Pharmaceutical Sciences: Pharmaceuticals, Pharmacology, Pharmaceutical Chemistry, Drug Formulation, Dosage Forms, Pharmaceutical Analysis

Quality and Compliance: Fundamentals of Quality Control (QC), Quality Assurance (QA), Good Manufacturing Practices (GMP), Good Laboratory Practices (GLP), Documentation Practices, Validation Concepts

Laboratory Techniques: pH Measurement, Weighing Balance, Titration, Formulation Preparation, Melting Point Determination, Qualitative and Quantitative Analysis, Basic UV Spectrophotometry

Formulation and Evaluation: Syrups, Lotions, Gels, Creams, pH Evaluation, Viscosity, Homogeneity, Stability Studies, Drug–Excipient Compatibility

Computer Skills: MS Word, MS Excel, PowerPoint, Basic Data Analysis, Internet Research, Scientific Documentation, Report Preparation

Professional Skills: Communication, Teamwork, Collaboration, Time Management, Adaptability, Quick Learning

EDUCATION

Bachelor of Pharmacy (B.Pharm)

Galgotias College of Pharmacy

Expected Graduation: [Add Year]

Third Year

Intermediate (Class XII)

S.S.M.C.D. College, Dahiya, Begusarai, Bihar

Year: [Add Year]

Percentage: [Add Percentage]

High School (Class X)

S.P.N.S. High School, Baaro, Begusarai, Bihar

Year: [Add Year]

Percentage: [Add Percentage]

INDUSTRIAL / HOSPITAL TRAINING

Shivalik Hospital

Noida, Uttar Pradesh

Hospital Training / Practical Exposure

- Gained introductory exposure to medicine dispensing and prescription handling.
- Observed proper medicine storage procedures and inventory management practices.
- Learned about stock maintenance and the importance of following hospital Standard Operating Procedures (SOPs).
- Observed safety protocols and appropriate handling practices in a hospital environment.

ACADEMIC PROJECTS

Pharmaceutical Chemistry and Analysis

- Performed academic organic synthesis exercises involving compounds such as phenytoin, subject to laboratory coursework.
- Studied melting point determination for quality evaluation and qualitative and quantitative analytical techniques.

Pharmaceutics: Formulation Preparation and Evaluation

- Prepared academic formulations including syrups, lotions, gels, and creams.
- Evaluated formulation characteristics such as pH, viscosity, homogeneity, and stability as applicable to laboratory exercises.
- Studied drug–excipient compatibility and the role of formulation properties in product quality.

Additional Laboratory Exposure

- Gained basic exposure to UV spectrophotometry, pharmaceutical calculations, and compounding.
- Followed laboratory safety practices and learned the importance of accurate experimental data recording.

CONFERENCES AND CERTIFICATIONS

-
- Participated in Pharmalnnovate 1, an international conference organized by Galgotias College of Pharmacy (2024).
 - Participated in the Pharmalnnovate International Conference organized by Galgotias College of Pharmacy (2025).
